RADCOM Reports Fourth Quarter and Full Year 2020 Results

- *Full year revenues of \$37.6 million, 14% year-over-year growth*
- *Fourth quarter revenues of \$10.2 million, 13% year-over-year growth*
- *Cash, cash equivalents, and short-term bank deposits of \$69 million and no debt*

TEL AVIV, Israel – February 17, 2021 – RADCOM Ltd. (Nasdaq: RDCM) today reported its financial results for the fourth quarter and full year ended December 31, 2020.

Commenting on the results, Eyal Harari, RADCOM's CEO, said: "We are pleased with our fourth quarter financial results, which concluded a full year of strong execution. The fourth quarter represented another consecutive quarter of revenue growth and closed the full year at the high end of our revenue guidance. We continued to manage operating expenses prudently throughout 2020 while executing our growth strategy and ensuring the safety of our employees and customers during the pandemic."

Our considerable R&D investment over the last several years resulted in the launch of our innovative 5G assurance platform, RADCOM ACE, in Q3 and has already gained market traction following our multi-year agreement with Rakuten Mobile, one of the industry's first standalone 5G assurance contract wins.

We expect 2021 to be an important year as more operators transition to 5G and the first advanced standalone networks begin to roll out. We continue to see increased investments across the 5G market from equipment providers to network operators, and we believe that the evolving market trends position us well for the future. Our leading 5G offering and expertise will become increasingly vital as industry players upgrade their networks and rely on our automated assurance capabilities and cloud-based technology. As the positive momentum builds in the 5G market, we intend to continue investing in our product development and sales and marketing.

"We are excited to enter the next chapter of our long-term journey and capitalize on the emerging 5G evolution while adapting to the ongoing COVID-19 situation. We expect the company to continue growing in 2021 and, based on our current visibility, we are providing full year 2021 revenue guidance of \$39-\$41 million."
